DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Species III (fig. 9-11), claims 1-8, 10-12, 16-20 in the reply filed on 9-2-04 is acknowledged.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2, 3, 4, 5, 6, 7, 8, 10, 11, 12, 16, 17, 18, 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Krenzke USP 1,787,731. Krenzke disclose a similar invention comprising a(n):

- Drive track disposed in a loop path having a pair of transverse legs offset in a vertical direction (fig. 1)
- Plurality of holding cages (13) connected to a drive track (30)

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 19 is rejected under 35 U.S.C. 103(a) as being unpatentable over Krenzke USP 1,787,731 in view of Elgharini USP 6,152,154.

It would have been obvious to one having ordinary skill in the art at the time of the invention to have employed the use of a monorail having a hollow tube section with rollers, as taught by Elgharini, in the device of Krenzke for the purpose of providing for a monorail system that encloses and thus protects the rollers.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
